

工業技術研究院實驗工廠一台 1995 年製造的 Morgan Mark III 電阻式熔解爐(鋁合金熔解量約 270 公斤)需補充 12 片電阻輻射加熱板備品， 適用的電阻輻射加熱板的型號請參考翻拍該熔解爐操作說明書的部分頁面照片。

We need to replenish 12 resistance heater panels for a Morgan Mark III resistance melting furnace (approximately 270 kg aluminum alloy melting capacity) manufactured in 1995 at the Industrial Technology Research Institute's aluminum casting pilot plant. Please refer to the photographed pages of the furnace's operating manual for the appropriate heater panels model.
